While creating Organic we listened to the best architect – nature itself.

Organic, cubic form filled with organic shapes, takes its design straight from nature to provide a bit of relaxation in today's stressful world.

The irregular design of the reception desk stimulates the imagination. The spider web with reflecting sunlight, or perhaps cells of a living organism? The natural design is emphasised by backlighting system of fluorescent light. The final impression is completed by the glass top that gives the reception splendor and nobility.

Soft design attracts attention.

The modular system allows you to create the reception desk corresponding to your own needs. The stylish design can decorate all the whole front of the counter or it can protrude on the left or right side. White makes the reception desk look fresh and gives plenty of options to arrange the place allowing individual ideas: white goes well with every other color.

White & just white.

White means purity, perfection and confidence. The desktop is made from pastel white lacobel glass, so are the front and sides of the reception desk.

The pattern of Arctic Summer emphasises fluorescent white light.

Opposites attract.

Arctic summer - ice flow warmed up with the glow - tube lighting. The fancy design of this reception desk is intended for people with imagination, who appreciate elegance and dislike monotony.

LOUNGE

Imagine a place at your office where you could feel at home.

Where you can relax, drown in your own thoughts or indulging in conversation with your colleagues while drinking a cup of coffee. Chill out zone is an investment in employees.

While creating the chill out zone our aim was to take care of the design, comfort and colors which allow you to relax. So we combined a black back and seats of the sofa with green, purple, orange and red pillows. We want to create the chill out with you. The module system allow you to customize the chill out zone to your own needs.
